

STA 5635 HW 7

Palmer Swanson

February 23, 2026

Problem 1

(1a) NN w/ one hidden layer, 256 neurons, ReLU activation.

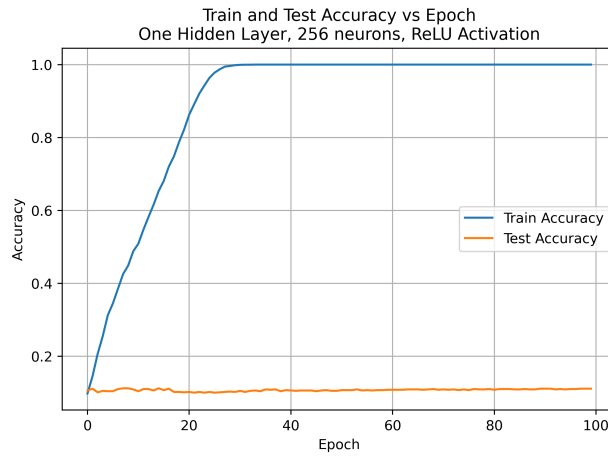

Figure 1: Train and Test accuracy vs. Epoch, part a.

(1b) NN w/ two hidden layers, 64 neurons, ReLU activation

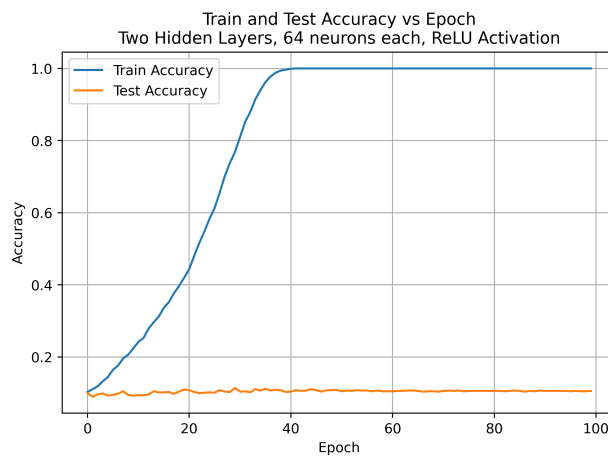

Figure 2: Train and Test accuracy vs. Epoch, part b.

(1c) NN w/ one hidden layer, 256 neurons, ReLU activation.

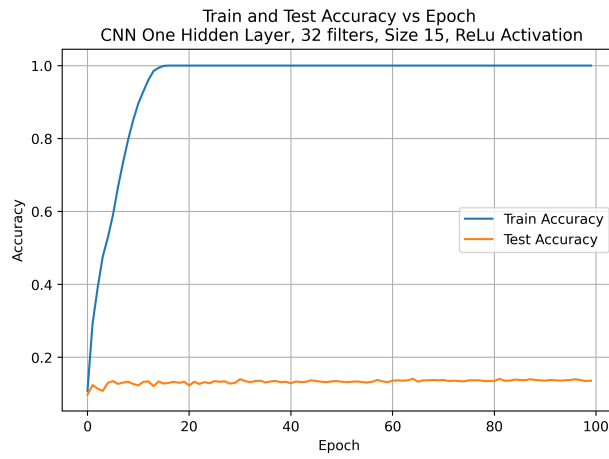

Figure 3: Train and Test accuracy vs. Epoch, part c.

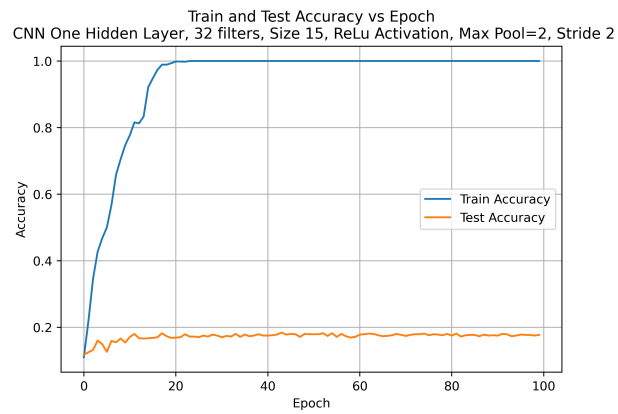

Figure 4: Train and Test accuracy vs. Epoch, part d.

- (1d) CNN w/ one hidden layer, 32 filters of size 15, ReLU activation
- (1e) CNN w/ one hidden layer, 32 filters of size 15, ReLU activation, max pooling size 2, stride 2.

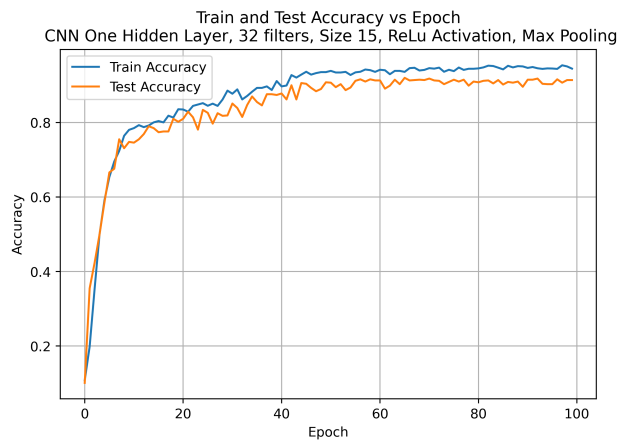

Figure 5: Train and Test accuracy vs. Epoch, part e.

- (1f) CNN w/ two hidden layers, 16 filters of size 15, ReLU activation, max pooling size 2, stride 2.
- (1g) CNN w/ three hidden layers, 16 filters of size 15, ReLU activation, max pooling size 2, stride 2.
